Ultimax SpaPump

Premier Ultimax pumps are the ultimate benchmark in design flexibility and performance. From small applications for zone seating and focused therapy up to multi pump configurations to run 100+ jetted systems. Ultimax pumps supply the specific performance features you require and the long service life and powerful performance spa owners demand.

FEATURES

- High flow rates exceeding 325 gallons per minute for maximum performance in your luxury applications.
- All seals are carbon ceramic with Viton® elastomers for long-lasting performance, easily enduring prolonged heat and chemical exposure.
- Multi-directional volute mountings provide the flexibility to accommodate any configuration; 2" and 2.5" suction options.
- Choose single or two-speed motors from 1.5 to 4 HP; with two-speed models, sanitation and heating can occur while maintaining lower operational costs.
- Specify an ultra efficient motor and our highest efficiency hydraulics versions help meet appliance efficiency regulations.
