

# SpaBlowers

Your Single Source Solution

- U.R. Recognized, C.S.A. Approved
- 1.5" tapered slip fitting on both inlet and outlet
- Thermally protected motors to prevent burnout
- Compact design can be installed vertically or horizontally
- High impact resistance at both high and low temperature, giving longer product life

# BalboaSpaBlowers

Balboa spa blowers revolutionize the spa industries again. The new motor dramatically improves performance while running cooler and quieter. Unique housing design with bottom air inlet creates a tortuous path, trapping noise inside the blower for ultra quiet performance. Small profile with easy access mounting tabs makes installation a snap. The high impact resistance at both high and low temperature gives the blower longer product life.
